3. General Disclosures

3.1 The Buyer is deemed to have knowledge of all matters which would be revealed by a search of the public registers listed in Appendix 3, and all matters fairly disclosed in the Data Room index at Appendix 1.

3.2 Without prejudice to the generality of paragraph 3.1, the Buyer's attention is drawn to the fact that, as is common in the specialty chemicals distribution sector, the Target has ongoing commercial discussions with certain key accounts from time to time regarding contract renewal terms, pricing and volume commitments, and that the outcome of such discussions cannot be guaranteed.

3.3 Save as Disclosed, the Sellers are not aware of any matter or circumstance which would render any of the Warranties inaccurate or misleading.
