Subject: Catch-up with Julian

Priya,

Quick note – spoke to Julian yesterday afternoon for our usual pre-completion check-in. Nothing of note on his end. He mentioned a couple of the usual customer renewals coming up over the summer as you'd expect in this business, general chat about the sales pipeline looking healthy for H2. No red flags raised.

Still on track for completion Thursday next week as far as I can tell. Will circulate the final CP checklist this afternoon.

Elliott
